

TIC-TAC-TOE PLAYER GUIDE

1) Upon launching tic-tac-toe.exe the following window will be presented. You, as the player, always make the first move. Simply click on the square of your choice to begin the game. An X or O will randomly be selected to represent your moves.

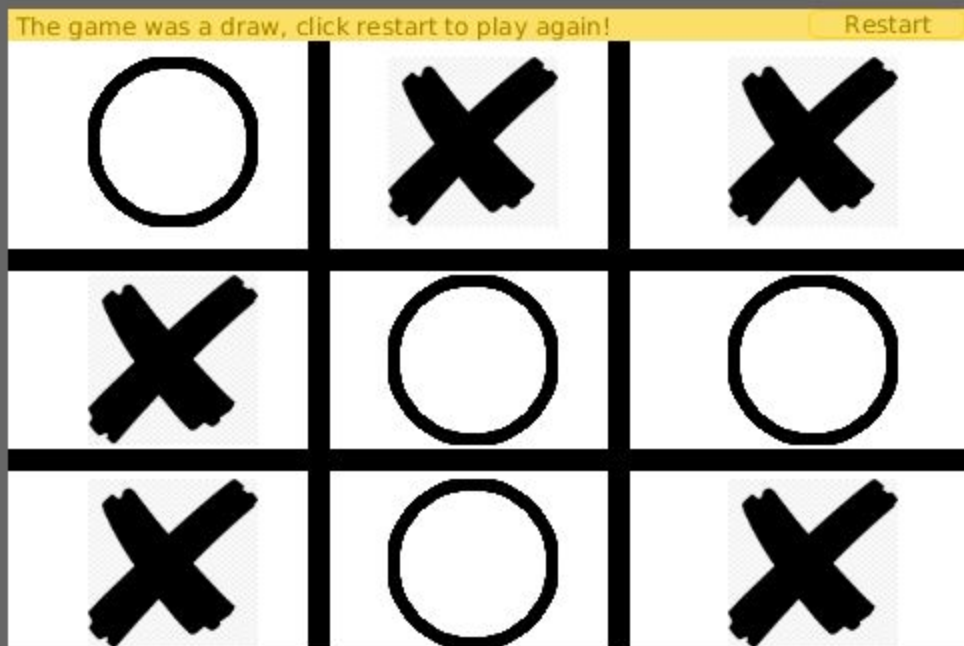

2) At any point a new game may be started by clicking the Restart button in the top right corner.

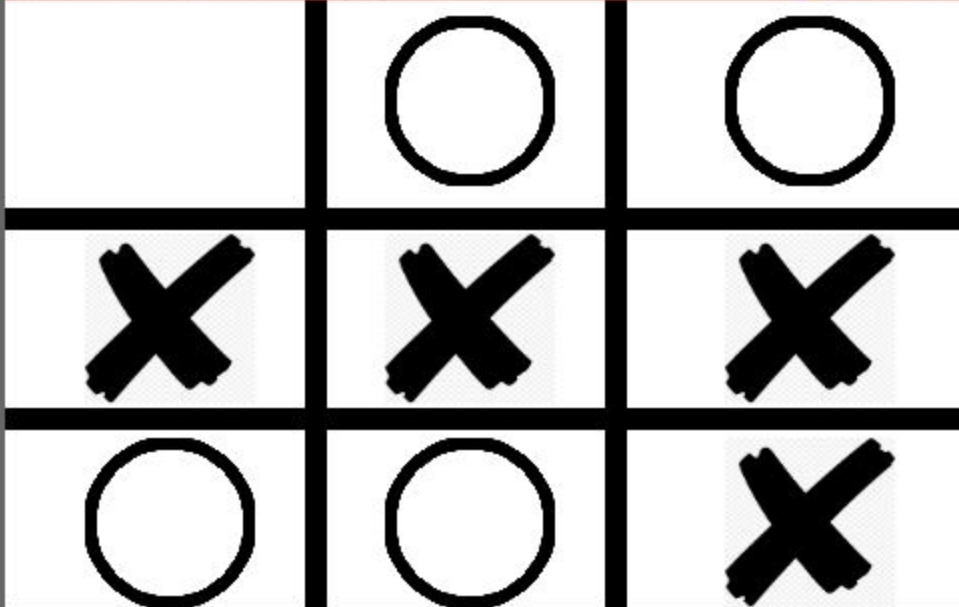

3) Continue to select available squares. If you win the top bar will display a message and change color. Green indicates you won, yellow (a draw), and red (a loss). Examples are shown below.

You lost, click restart to play again!

Restart

You won, click restart to play again!
